Date Filed: November 20, 2018
Date to be Effective: December 1, 2018
Docket No.: 2018-UA-39

MISSISSIPPI PUBLIC SERVICE COMMISSION

P.S.C. Schedule No. I-21
Revised Schedule No. 21, Date: December 1, 2018
Superseded Schedule No. 21, Date: June 29, 2016
Schedule Consists of: Five Pages

PRIVATE AREA LIGHTING RATE SCHEDULE PAL-17**I. AVAILABILITY**

At points on Company's existing overhead secondary distribution lines in municipalities in which Company does a general retail business or in rural areas certified to Company.

II. APPLICATION

For service to customers contracting for overhead lighting service from street lighting equipment supplied by Company.

Service is from dusk to dawn. Company will own, operate, and maintain the lighting system, including lamp replacements. Units shall be of standard designs adopted by Company.

Service is for the exclusive use of the customer and shall not be resold or shared with others.

III. NET MONTHLY RATES**A. LUMINAIRES**

400 Watt Off Roadway Lighting	MS_MHORWL		\$32.77	150
400 Watt Shoebox	MS_MSHOX		\$34.52	165
1,000 Watt behind meter	XMS_1K-MH		\$56.68	380

(1) When the fixture, lamp, or photo cell fails the Company will replace the fixture with an equivalent High Pressure Sodium fixture from Section A of this schedule unless the Customer requests an alternative fixture from an applicable lighting rate schedule at the current monthly rate of the replacement fixture.

(2) Not available for new applications after effective date of this Schedule. Existing installations will be maintained until the fixture fails, or lamps are no longer available. Customer may then choose a replacement at the then current monthly rate of the replacement. Photocell or lamp failure will not be considered a fixture failure.

D. POLES AND STANDARDS CURRENTLY IN SERVICE BUT NOT AVAILABLE TO NEW INSTALLATIONS

<u>FACILITY DESCRIPTION</u>	<u>RATE KEY</u>	<u>UNIT PRICE EACH</u>
<u>WOOD</u>		
25 foot wood pole handset	MS_25PHS	\$27.02

30 foot class 7 wood pole (including supply line)	XMS_30FWDB	\$ 4.91
35 foot class 7 wood pole installed after 7/1/80 (including supply line)	MS_35FWD	\$ 5.19
<u>STEEL</u>		
27 foot steel standard pole before 11/69	MS_27STP	\$ 3.55

E. OTHER

For any facilities not listed above or rearrangement of Company's electric distribution facilities necessary to render service hereunder, an additional charge will be made equal to 2% per month of the cost thereof.

F. APPLICABLE RIDERS AND ADJUSTMENTS

No riders apply except the Company's FRP, SD, ECR, EE, SRC and TA Riders. No adjustments apply except as explicitly set out in the Rate Schedule herein below.

First - Plus or minus an amount determined in accordance with Company's effective Energy Cost Recovery Rider on file with the Mississippi Public Service Commission. The kWh used in computing the adjustment will be one twelfth (1/12th) of the energy used annually by the units in service at the end of the month.

Second - Plus or minus a percentage adjustment on the pre-tax billing sufficient to compensate Company for any increase in income taxes above the 1993 level or to reduce Customer's billing to adjust for any decrease in any effective income tax rates.

Upon any change in the effective rates of income taxes the Company will file within 30 days the percentage adjustment to be applied for the remainder of the year based on operations for the prior calendar year. Subsequently the percentage adjustment to be applied during a year will be filed with the Commission prior to February 1 of each year and will be based on the prior calendar year's operations. The adjustment will be such percentage as may be necessary to obtain the same after-tax income under the effective tax rates as would have been realized under the income tax rates in effect for the year 1993 without this income tax adjustment.

Third - Plus the applicable proportionate part of any directly allocable tax, impost, or assessment imposed, or levied by any governmental authority, which is assessed or levied against the Company or directly affects the Company's cost of operation and which the Company is legally obligated to pay on the basis of meters, customers, or rates of, or revenue from electric power and energy or service sold, or on the volume of the energy generated, transported, purchased for sale, or sold, or on any other basis where direct allocation is possible.

IV. CONTRACT PERIOD

Month to month unless additional facilities are required or if there are special conditions, in which event the contract period will be not less than two years. Should service be terminated prior to the term of this Agreement, the customer will be required to pay the Company an amount equal to the removal cost of the lighting equipment and facilities involved.

V. RESERVATION

The mounting of the area lighting equipment shall be limited to (1) Company-owned poles at a location below the distribution primary wires if any are on the poles and (2) customer-owned poles, standards, and/or other facilities meeting Company's requirements for safety. The mounting height of the area lighting equipment shall be such that it can be serviced by Company's service equipment in the area. The area lighting equipment will not be mounted on customer's building.

Subject to orders of regulatory authorities having jurisdiction and to the provisions of Company's Service Policy on file with the Mississippi Public Service Commission. Company will use due diligence to render adequate service but does not obligate itself to make special service calls to make repairs on the street lighting installations or to replace lamps. If Company experiences excessive lamp replacements or maintenance expense because of vandalism or other causes beyond its control, it reserves the right to discontinue service.
